BOOK SYNOPSIS

It is well-known that the Swedish experiment in practical economic control was inspired by a simultaneous development of economic thought in Sweden. Despite Swedish economics being known globally, until this book was originally published in 1939 there was little except second-hand descriptions of what the Swedes were really saying. This volume remedied that and explained hitherto hidden contemporary Swedish monetary theory.

STUDIES IN THE THEORY OF MONEY AND CAPITAL ROUTLEDGE LIBRARY EDITIONS LANDMARKS IN THE HISTORY OF ECONOMIC THOUGHT
